

RE - Knowledge

RE makes a major contribution to ensuring that pupils become spiritually, morally and socially aware, developing empathy and compassion, as well as the ability to evaluate and analyse. We need our young people to understand that life is precious and that it is important to cherish themselves and others, to build a strong sense of their own value and identity and be the best people they can be. We would like them to challenge those in authority to make the world a safe and better place, and believe high quality RE can help equip them with the knowledge, skills and attitudes with which to do this.
