

School age immunisation service

Changes to consent for immunisation

We are changing the way we obtain consent from parents and carers for the flu immunisation programme.

In future you will be able to enrol your child for this service and provide consent online instead of filling in a paper form. This will allow you to provide consent using any device, anywhere and at any time to suit you, ensuring all information you provide is held securely.

You will receive an e-mail from school with further details including the process for looked after children in due course. When registering a child for the service you will need to ensure the details provided match their NHS record. Please therefore ensure that both school and the child's GP have your up to date contact details e.g. e-mail, phone and address.

Please check your emails regularly throughout the Autumn term so you don't miss the offer for your child to be vaccinated against flu.
