

...high hopes for you and your little folks

Starting school together

"Starting school together" is a course of sessions that support a child's school readiness skills.

It is aimed at preparing children for a 'flying start' in reception and will be run virtually through BCP Tapestry.

During these sessions we will offer lots of individualised support and ideas for you and your child to practice all the skills they will need at school.

The online programme will offer fun play activities for you and your child to practice at home, advice and support.

So, if your child is due to start School in September 2021, and your setting, childminder or health visitor feels that this group may benefit yourself or your child, then with your permission, they can refer you in and put your names on the enquiry list.
