

Sooper Books School Newsletter

Sooper Books is a family run company, founded by husband (Simon), who writes the stories, and wife (Charlene), who illustrates the books. Having a young child they are passionate about making reading fun for children and encouraging literacy engagement in the digital age.

Message from our Founders

'Hello there!

We're Sooper Books and we're excited to share our digital library with you! We have everything from fairy tales and fables to original stories and series. Each story has illustrations and an audiobook to bring the story to life!

Sooper Books was created by us, Charlene and Simon. We started writing bedtime stories for our first born over a year ago. We went from using it ourselves at home to the World's No. 1 bedtime story site used in over 230 countries within a couple of months.

We love books. From paper books to audio books, we believe literacy is a top priority and that learning to read should be stimulating, engaging and most importantly... fun!

"The kids absolutely loved it and learned all the words and were laughing out loud. It was just what we all needed during lockdown as a family pick-me-up." - Sarah

So, if you're looking for a ton of side-splitting stories and audiobooks to keep your littlies entertained for hours, head over to our website and start reading. We hope you love the stories as much as we do!

Many thanks,
Charlene and Simon (Founders of Sooper Books)
